Stûv Stories

Welcome to the world of Stûv! Our products provide ways to layout and rearrange your interior. The story that they tell is straightforward and warm, simple and efficient. A story where appearance is functional and where objects blend into the architecture. Quality and perfection are the watchwords at Stûv. To improve is to simplify. This means humanising design. It also means constant innovation until a perfect harmony is found between pleasure and respect for the environment. Stûv the essential fire.

The constant search for improvement...

Stûv invests enormously in research and development in its own laboratory and in its partnerships with specialists in the field of combustion. Each detail is important in optimizing the performance of the fire. Stûv appliances meet the most stringent standards in terms of respect for the environment. We give priority to ergonomics and simplicity at all stages – installation, use, maintenance – so that everyone can use their Stûv exactly how they want to. This is the reason we provide detailed installation instructions, select our sales network and organize training sessions for our retail and installation partners.

The Stûv guarantee

- + Stûv fires are renowned for their design and performance. They are also solid, reliable and durable.
- + The fires and their components are made in Europe with the utmost care. A well-maintained Stûv fire is for life.
- + This is why Stûv offers the users of its products an adapted guarantee (see guarantee conditions).

What do you need to do to benefit from this guarantee?

Complete the guarantee form that you will find at the end of the user manual and return it to your official dealer or go to :
